The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Osborne et al. reference relates to a copending application with the identical priority date that claims a different embodiment, and the Oritiz et al. reference pertains to a syringe packaging system with an arrangement that removes a tip, fills and later installs a luer-type cap on the filled syringe.

The following is an examiner's statement of reasons for allowance: none of the prior art, alone or in combination, teach Applicant's invention of a syringe preparation system and method comprising removing a tip cap, filling the syringe, replacing the removed tip cap and further joining the tip cap to the syringe in a local area to produce a tamper evident syringe.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven O. Douglas whose telephone number is (571) 272-4885. The examiner can normally be reached on Mon-Thurs 6:00-6:30.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
